

Mobile Application Development Lab CSC-455

Lab: 04

Class: BS(CS)-VII

Instructor: Adil Khan

Date: 27th of Oct, 2021

Exercise 4: Common Widgets/Controls

Task 4.1

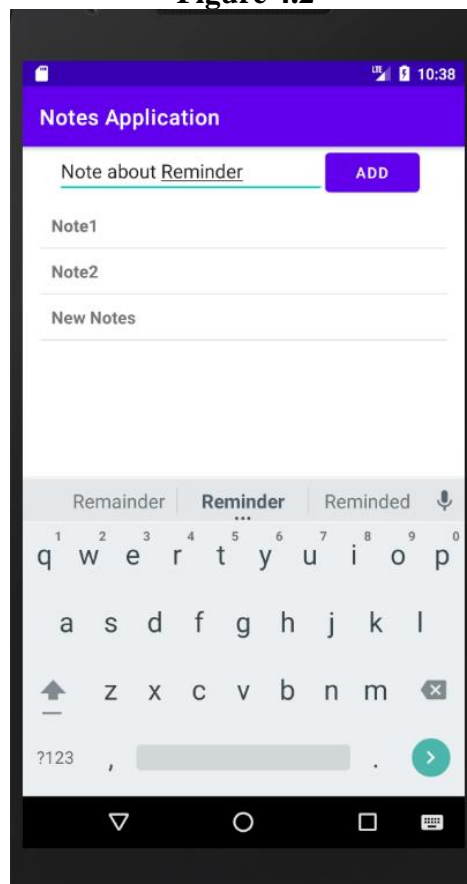

Create a screen that has input boxes for User Name, Password, and Address, Gender (radio buttons for male and female), Age (numeric), Date of Birth (Date Picker), State (Spinner) and a Submit button. On clicking the submit button, print all the data below the Submit Button (use any layout).

Task 4.2

Create an app like **Notes** in your android phones. For this app you have to need:

- One text box for entering notes.
- One button for adding notes.
- One list view for displaying notes.

Figure 4.2

Task 4.3

Create a Mr. Potato app. Description is following:

- You have to use image views for showing different images. Images are upload on GCR in folder attached.
- Different check boxes are used for different parts of bodies.
- If “arms” checkbox is checked then arms must be there on potato. Same for other parts.
